Introduction

This document contains the feedback gotten from fellow peers apart my UI before its current state

Feedback Gotten

- 1) Content in pages need to be centralised and consistent
- 2) Keep a consistent font styling
- 3) Move the navbar from a side navbar to a horizontal navbar
- 4) Make the logo on the navbar smaller
- 5) Why not go for a plain nav bar instead of one with colour
- 6) Reduce the font size of the nav bar text
- 7) On the Graduation Year and Class management pages the UI needs a lot of work why not put the textbox and button in a form
- 8) Feedback after an admin adds another user should be present
- 9) Why not have the login page redirect the user especially the admin to a page that is vital for him to see at start up
- 10) Add a profile info page for the user which just logged in
- 11) Auto generate the user password
- 12) Add the Logout button to the side of the navbar

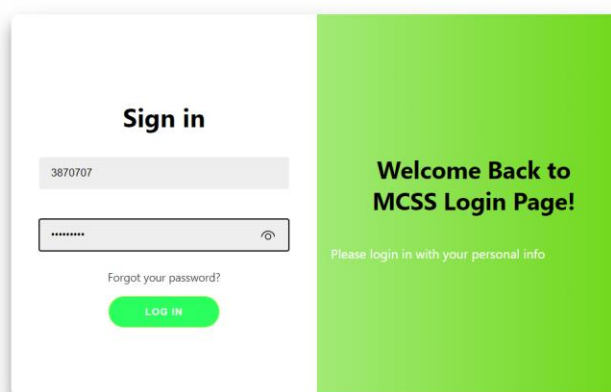

Improvements

Content in pages need to be centralised and consistent

As seen from all the screenshots the content in all pages is now more in the centre

Keep a consistent font styling

As seen from the screen shots a more consistent font styling has been used

A screenshot of a login page for MCSS. The page is split into two main sections. The left section is white and contains the 'Sign in' form. The right section is a solid green color and contains a welcome message. The form on the left has a title 'Sign in' in bold. Below it is a text input field containing the number '3870707'. Underneath that is a password input field with a masked password '*****' and a toggle icon for visibility. Below the password field is a link 'Forgot your password?'. At the bottom of the form is a green 'LOG IN' button. The green section on the right has the text 'Welcome Back to MCSS Login Page!' in bold, followed by the instruction 'Please login in with your personal info'.

LOG IN

**Welcome Back to
MCSS Login Page!**

Please login in with your personal info

Move the navbar from a side navbar to a horizontal navbar
Make the logo on the navbar smaller
Why not go for a plain nav bar instead of one with colour
Reduce the font size of the nav bar text

As seen from the screenshot below

- The former side navbar has been moved to a horizontal nav bar
- the logo has been made smaller
- A plain background is being used for the nav bar
- The font size of the text on the navbar has been reduced

On the Graduation Year and Class management pages the UI needs a lot of work why not put the textbox and button in a form

Seen from the screenshot below:

- The UI of the graduation class and graduation year management pages has been changed to look a bit better than before
- The text boxes and button for both have been inserted in a form

[HOME](#)[SIGNUP PAGE](#)[MEMORIES](#)[MANAGE GRAD YEAR PAGE](#)[MANAGE GRAD CLASS PAGE](#)[UPLOAD IMAGES](#)

Add GraduationYear

ADD YEAR

Graduation years

Graduating Year: 2017

Graduating Year: 2021

Graduating Year: 2020

Add Graduation Class

ADD CLASS

Feedback after an admin adds another user should be present
Now when an admin adds another user he gets feedback if the user was added
